Ms Eileen Morabito

Sebastopol, CA 95472

Dear Ms. Morabito:

Thank you for sharing your concerns regarding the store we are planning to open in Sebastopol.

The location of our new store is a closed car dealership that many in the community believe to be an eyesore. We are confident that our new freestanding CVS/pharmacy will be a vast improvement to the site.

CVS and its real estate developer have worked cooperatively with the town of Sebastopol for more than two years to receive the necessary approvals to build our new store. To address community concerns, the store was redesigned multiple times in order to ensure that our building complements the surrounding neighborhood.

While we respect your right to disagree with our plans, we have also heard from many people in the Sebastopol community who are looking forward to the opening of our new store.

Thank you again for providing us with an opportunity to address your concerns.

Sincerely,

A handwritten signature in cursive script that reads "Andrea".
