

Another Gas Station? NO!

Proposed Location: 5300 Sebastopol Road (Llano Road & Highway 12)

Do we have a
climate crisis
or don't we?

How much
"convenience"
do we need?

The proposal includes the 12-pump gas station, mini-mart, carwash, and RV storage yard.

Why not?

- There is no need for a gas station in this location. There are 7 existing stations within a 5-mile radius
- It is immediately adjacent to the Joe Rodota Trail
- The gasoline and diesel storage will be *above ground!*
- The location is in the Laguna de Santa Rosa within California tiger salamander Critical Habitat
- We are in the midst of a climate crisis and should not be building obsolete 20th century fossil fuel infrastructure

The project will next go to the Board of Zoning Adjustments. Send Comments to staff:

Daniel Hoffman dhoffman@migcom.com and arielle.kohn@sonoma-county.org

And District 5 Commissioners:

Pamela Davis: p.davis479@gmail.com and John Lowry: JohnLowryCA@gmail.com

Copy [your County Supervisor](#) and Supervisor Lynda Hopkins of District 5, where the project is located: lynda.hopkins@sonoma-county.org

SnailMail for all of the above: 2550 Ventura Ave. Santa Rosa, California 95403-2859
