Women, let's heal our chakras with **Mary Magdalene and her female companions!** What do Mary Magdalene and her companions have to do with our **"female" chakras**? They offer us different energy qualities, which we can use for **healing our personal chakras** as well as offering a deep healing for the female collective as a whole. On this evening Ingrid offers you chakra healing energy from Mary Magdalene and her companions such as **Sarah Tamar, Sara-la-Kali, Mother Mary, Anna or others.** She will also explain about her spiritual tools, symbols and essences and show in a practical application how you can use them for yourself. The evening will be framed by profound, **healing meditations** and **live channelings.**
